

Reimagining School.

Innovative online programs designed to meet the individual needs of your child—and your family.

Private School Catalog

Transcend the Limits of Traditional School.

Our online, private school programs are designed to instill a love of learning, empower each student, and prepare them for future success.

[K12academy.com](https://www.k12academy.com)

Dear Families & Students,

As General Manager of K12 Private Schools, I want to personally thank you for taking the time to explore your options, and for considering something different.

At K12, we understand that traditional brick-and-mortar schools work well for some students, but not for all. Every learner is unique. Some thrive with more flexibility, others need a safer space to grow, and many are simply looking for an environment that truly sees them and meets them where they are. That's where we come in.

Our online private schools offer a student-centered approach combined with a high-quality, accredited education. Whether you're seeking academic rigor or independence to pursue passions, your student's experience will be tailored to their strengths, and needs.

Many of our schools are approved for state-funded scholarships, also known as Educational Savings Account (ESA) or voucher programs, providing access to a private education without the financial strain.

We believe that when families have choices, students gain opportunities.

Warm regards,

A handwritten signature in black ink that reads "Anju Olson". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Anju Olson
General Manager, K12 Private Schools

About K12 Private Academies

We believe that one-size-fits-all education is a thing of the past.

Our mission is to design programs that meet the individual needs of every student and family wherever they are, and however they learn best.

Education should be a journey of exploration and growth, not just a checklist. Too often, students graduate unprepared for real life. Our programs are built to change that, fostering not only academic excellence but also curiosity, empathy, and readiness for the future.

We give K–12 students the freedom to learn in ways that fit their unique strengths and goals. They are supported by outstanding teachers, dedicated advisors, and a global learning community that celebrates their individuality and builds their knowledge.

Award Winning Curriculums

K12 has led the online learning space for more than two decades and is accredited by the nation's top educational institutions. Our curriculum is built for online instruction and delivered by educators who are experts in virtual teaching.

Our research-backed approach sparks curiosity, ignites imagination, and encourages students to take ownership of their learning. K12's state-of-the-art curriculums support all learning styles. Through interactive games, videos, and hands-on activities, we make education dynamic, fun, and effective. Learn more about our PreK-12 courses below and [explore sample schedules and more here.](#)

The K12 Methodology

Personalized Learning

You choose the pace and structure that's right for your child.

Individual Growth

Students develop skills outside of the classroom like time management.

Future Planning

We prepare each student to step confidently into college or a career.

“K12 Private Academy was the perfect fit for me as a dancer with a busy schedule. The flexibility allowed me to manage school on my own time while still attending all my dance classes. The teachers were supportive, and the classes prepared me well for college. I highly recommend it!”

-K12PA Graduate

Diverse Instructional Models

K12 Private Academies offer a variety of unique learning methods.

Seminar-Based Learning

Students at Grand Canyon Private Academy participate in collaborative discussions rather than lectures, which fosters open communication and teaches students to think more openly, respond to others, and defend their ideas.

Journeys Symposium

At George Washington University Online High School, Journeys Symposium give students the opportunity to expand their academic potential and prepare for future academic and professional experiences.

Flipped Instruction

At K12 Private Academy, students learn through a flipped instruction model, studying new material on their own, then coming together in their live, virtual classrooms to practice, ask questions, and engage more deeply with the material.

PreK-Kindergarten

Give your child the building blocks for lifelong learning. Through engaging online activities, young students are introduced to foundational academic and social-emotional concepts.

We follow a hands-on, curiosity-driven model that mirrors how children naturally explore the world—using all five senses. By tapping into this innate curiosity, we help students build a joyful and solid start to their educational journey.

Elementary Courses

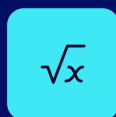

In elementary grades, students develop core skills through engaging, play-based instruction. Our curriculum is rich in sensory learning, project-based activities, and visual storytelling.

English Language Arts: Students strengthen reading, writing, and communication.

World Languages: Foundational skills are taught through fun stories, songs, and interactive games rooted in cultural traditions.

Math: Real-world math concepts come alive through games, practice, and technology.

Arts & Music: Students draw inspiration from global masterpieces and build musical knowledge by singing, dancing, and using virtual instruments.

Science: Interactive virtual labs make science hands-on and exciting, with topics like geology, matter, plants, and animals.

Health & P.E.: Physical, mental, and emotional wellness is a priority, encouraging healthy habits, self-awareness, and movement.

Social Studies: Using credible sources and maps, students investigate government, community, and citizenship.

“

“The programs and amazing staff believed in my son and showed him kindness, patience and most importantly gave him a real educational opportunity to succeed.”

-Mike, K12 Parent

”

Middle School Courses

As students gain independence, our flexible and personalized learning supports exploration and academic confidence.

English Language Arts: Students analyze literary works and develop advanced grammar and writing skills.

Math: Students progress from foundational concepts to algebra and geometry, using interactive tools and real-world application.

Social Studies: Students explore history, civic responsibility, and cultural shifts that shape society.

Science: Engaging labs and discussions explore geology, physics, chemistry, and space—encouraging curiosity and experimentation.

World Languages: Taught through live sessions and media-rich resources in Spanish, French, or Chinese.

Arts & Music: Projects inspired by world art and music traditions, helping students express themselves and build appreciation.

Health & P.E.: Learn online safety, bullying prevention, nutrition, and emotional health to support well-rounded growth.

Career Readiness: Students discover interests through hands-on electives in engineering, healthcare, coding, journalism, and more.

Meet Jacob

At Grand Canyon Private Academy (GCPA), students are empowered to pursue both academic excellence and their personal passions. Sixth-grader Jacob is a shining example of this balance. An exceptional student and dedicated hockey player, Jacob's journey through virtual learning showcases how GCPA supports gifted students in achieving their goals.

“

With Jacob's demanding schedule, attending a traditional school wouldn't be feasible. Virtual learning allows him to thrive in both academics and hockey without compromising on either.

—Said, K. , Jacob's Father

”

High School Courses

Our high school curriculum is a springboard to college, career, and beyond—designed to challenge, engage, and inspire.

English Language Arts: Students explore literature, build writing portfolios, and hone communication. Electives include journalism, creative writing, and AP courses.

Math: From algebra to calculus, our math pathways support every level learner. AP options and applied math courses prepare students for college and life.

History: Courses span U.S. and world history, government, economics, and anthropology. Students analyze social systems and historical change to better understand today's world.

Science: Students explore biology, chemistry, physics, and forensics with hands-on labs and real-world connections. Advanced learners may pursue AP Science courses.

World Languages: Options include Spanish, French, Chinese, and American Sign Language. Students gain proficiency through immersive experiences.

Career Readiness: Students discover interests through hands-on electives in engineering, healthcare, coding, journalism, and more.

Electives: A wide range of options—from mythology and music to law, and digital arts—help students explore passions and earn college credits.

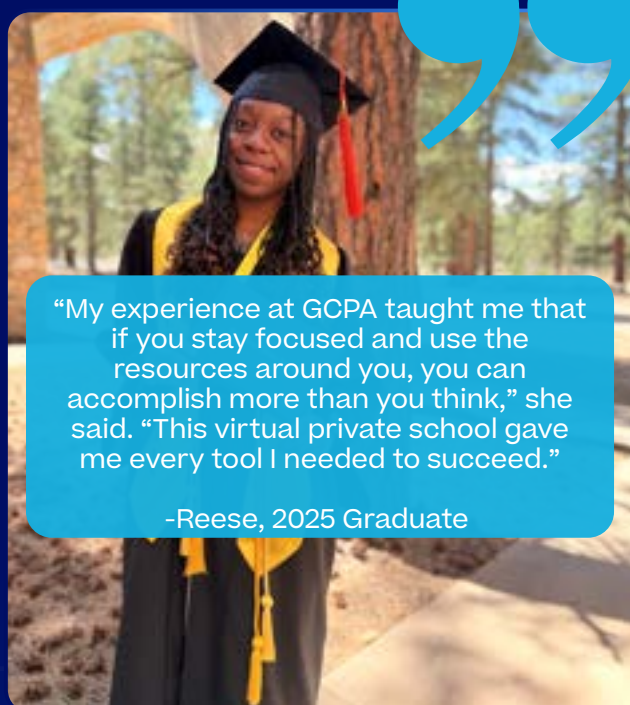

Life After High School

It's never too early to plan for the future. With K12, students can explore careers and post-secondary paths starting in middle school.

Programs include:

- Career and college coaching
- Certification prep in high-demand fields
- Internships and hands-on projects
- Career clubs and leadership training

Fields include agriscience, culinary arts, hotel management, IT, engineering, healthcare, and more.

"My experience at GCPA taught me that if you stay focused and use the resources around you, you can accomplish more than you think," she said. "This virtual private school gave me every tool I needed to succeed."

-Reese, 2025 Graduate

Different by Design

Because your student deserves an education built around who they are and where they're going.

Emotional Learning

We help students of all ages understand their emotions deeply, cope with them in a healthy way, and practice empathy.

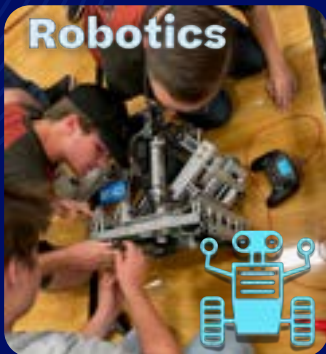

Digital Pathways

Students can earn real-world certifications and technical skills that top companies are looking for—before graduating from high school.

Find Your Purpose

Our students explore many different paths—through clubs, career shadowing and internships, virtual college visits, and more.

Robotics

E-Sports

“Extracurriculars like this take dedication, but they’re rewarding. You get the knowledge, the sense of accomplishment, and it’s just fun.”

–Jason, Keystone Student & Robotics Team

Find the Right Fit
